

Converged Infrastructure Solutions

Successfully Build a Data Center for the Future

Accelerate and simplify design and deployment cycles

Optimize operations

Improve total cost of ownership

PANDUIT®

Converged Infrastructure Solutions

Unmatched end-to-end solutions for physical data center infrastructures

Designed and built as an interoperable end-to-end solution, Panduit Converged Infrastructure Solutions facilitate faster implementation by streamlining the process of designing, specifying, installing, and managing the increasingly complex physical infrastructure necessary to optimize your data center.

DCIM Operations and Monitoring

- Modular software and hardware solution for automated management of the physical data center infrastructure
- Bridge between IT and Facilities, management and operations
- Consolidation of all relevant data center information
- Integration into existing and/or higher level management systems
- Development and implementation of processes in data centers
- Visibility through reporting and dashboards
- Power and environmental monitoring and management
- Energy costs savings (power and cooling)
- Asset management and connectivity monitoring

Intelligent Rack PDUs

- 1-phase, 3-phase, horizontal/vertical mounting
- 10, 13, 16, 32 and 64 A
- Vast PDU variety and flexible outlet configurations

Energy Efficient Data Center Cabinet Systems

- Cabinets, smart-cabinets and network cabinets
- Thermal containment pods
- Cold/hot aisle containment
- In-cabinet ducting
- Universal aisle containment (cabinet vendor neutral)

Panduit's End-to-End High Speed Data Transport Solutions

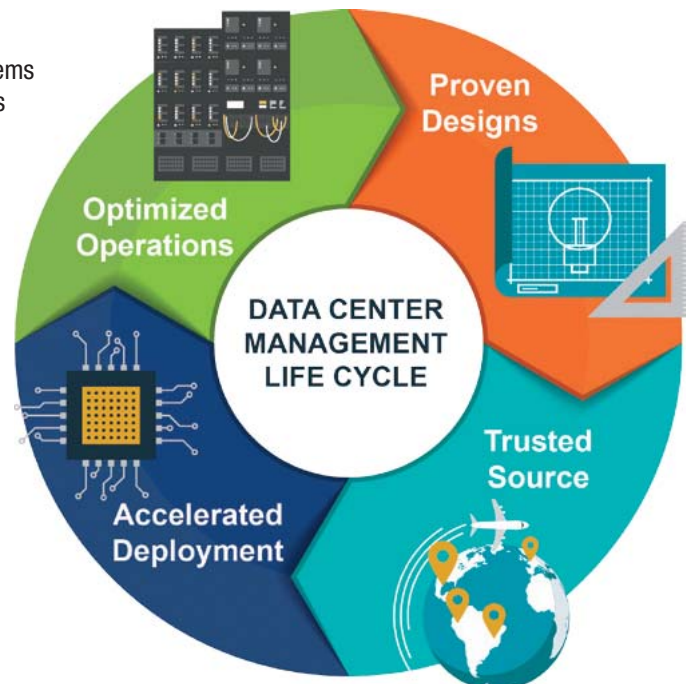

- QuickNet™ fiber optic cabling system
- QuickNet™ pre-terminated copper and fiber cabling systems: can be installed in 75% less time than field termination methods
- Signature Core™ fiber optic cabling system
- OM3 and OM4 multimode fiber
- PanMPO fiber connectors

Cable Management and Pathways

- Wyr-Grid™ overhead cable tray routing systems
 - Twice as fast pathway installation
 - Ability to increase cable densities and cabinet capacities
 - Quicker physical infrastructure deployments

Professional Services

- **Chart** the current state of your physical infrastructure
- **Optimize** your environment in support of logical network requirements
- **Transform** your business with a clear and actionable path forward

Benefits of a Converged Infrastructure Solution

- Build or refine to address changing demands
- Simplify, accelerate design and deployment
- Reduce TCO
- Minimal integration issues
- Primary vendor backed by world-class partners
